Essential H.A.

Finally, an anti-wrinkle product that really works and is clinically proven to make your face look younger

Adëeva Essential HA is a two-step anti-wrinkle system comprised of a spray and serum. Both products contain a proven active ingredient, which reverses skin aging by re-establishing a vital skin substance that reverses the aging process. This active ingredient is known as Hydrexelin.

How Does It Work?

After age 20 the skin loses its ability to make optimal amounts of substances called humectants. Within the skin humectants bind water, keeping the skin hydrated and looking smooth. As we age the loss of skin humectants (e.g. hyaluronic acid) allows the skin to dehydrate and shrivel up forming crow's feet, fine lines and other facial wrinkles.

The same way that grapes turn into shriveled-up raisins, when they become dehydrated, our skin becomes wrinkled and shriveled up as it loses its ability to make adequate amounts of humectants to hold water in the skin.

To counter the aging process, Adëeva Essential HA provides the skin with the most effective and clinically-proven humectant discovered to date, which is known as Hydrexelin. Within the skin, Hydrexelin acts like a water magnet (holding up to 1000 times its weight in moisture) pulling water from the bloodstream below, and into the skin layers.

Applying Hydrexelin to the skin each morning and evening enables you to reconstitute the skin with the humectants it can no longer make for itself. In turn, the skin becomes re-hydrated from the inside out, which reverses an important step in the wrinkling process. The result is a significant visible difference in the appearance of facial lines.

In short, Adëeva Essential H.A. works by re-establishing more youthful levels of skin humectants, thereby restoring optimal skin hydration, adding fullness to the skin and smoothing it out for a more youthful appearance. In many cases, Adëeva Essential HA has been shown to reverse facial aging by more than 5 years, by naturally filling in the lines that once appeared as crow's feet and shallow wrinkles on the face.

Endorsed And Used By Many Skin Care Professionals And Plastic Surgeons

Skin care professionals that use Adëeva Essential H.A. themselves recommend it to all their clients over 20 years of age, due to its proven method of re-establishing more youthful levels of this vital anti-aging skin nutrient.

We now understand many of the factors that lead to facial aging. Research shows that you can counter the aging process head-on, by re-establishing more youthful levels of skin humectants - use Adëeva Essential H.A. to turn back the hands of time.

Testimonials

Here is what one client had to say after using Adëeva Essential HA for just several weeks, "Since using Adëeva Essential HA Spray and Serum my skin looks and feels radiant, soft and gives me a glowing complexion. People are noticing a difference in my skin. I absolutely love it !!! I have highly recommended it to others that I know." (Lisa G. Toronto, Ontario - age 47)

All-Natural Product With No Parabens

Adëeva Essential H.A. is an all-natural, VEGAN-based product. The HA in most other cosmetic products is derived from rooster comb. Adëeva Essential H.A. does not contain any parabens and all of its natural ingredients meet the standards of the European Cosmetics Association, which have the highest standards in the world for natural cosmetic products.

If you are over 20 years of age and wish to slow/reverse facial aging ask your health practitioner about Adëeva Essential HA.
