

Adëeva™ Products

All-In-One Multi-Vitamin & Mineral

High Potency - B-50 complex, antioxidant enriched & 500 mg calcium

Nature's Essential Oils

Optimal blend of Omega essential fatty acids

Glucosamine Joint Formula

Fast-acting formula for Osteoarthritis and joint cartilage damage

Nature's Relief

Natural anti-inflammatory for joints, muscles and bursitis

Women's Hormonal Balance

Relief of Menopause symptoms, PMS, fibrocystic breast disease

Bone Support Formula

Prevention and Management of Osteoporosis

Prostate 40 Plus

Prevents/Reverses Prostate enlargement and supports prostate health

Body Burn

Fat Metabolizer for weight loss, athletic performance and blood sugar control

Immuno-Detox Prime

Strengthens the immune and detox systems

Flora-Essentials

Improves digestion and immune function

Cardio Essentials

CoQ10 and Hawthorn for heart health and blood pressure regulation

Thyro-Support Formula

Supports thyroid function and thyroid hormone therapy

Memory Support Complex

Supports memory and helps prevent age-related memory loss

SensaGen

Sexual enhancement for men and women

CholesterEx

Lowers cholesterol and triglycerides

UT-Clear

Prevents recurrence of urinary tract infections

Sleep-E Naturals

Natural sleep agent with brain protective nutrients

Ultimate Glutathione

Increase levels of glutathione for liver, kidney and immune support

MigranEx

Helps to reduce migraine attacks

Adrenal Support Formula

Anti-stress formula and adrenal support

Nature's Iron

High potency and bioavailable iron (45 mg) - non constipating

Orega Sept

Nature's antibiotic to help fight infections, acne and rosacea

Lean Mass Plus

High quality whey protein and fibre shake

Clinical Weight Loss Kit

Dr. Meschino's complete weight loss coaching system

Essential H.A.

Topical formula to reverse wrinkles, crows feet and fine lines

Stone Factors

For treatment and prevention of kidney and gallbladder stones

Creatine Plus

Powder-stir into juice for increased energy, strength, power

Nutrition and Your Thyroid Gland

Do you have symptoms of low thyroid, but your blood tests are normal? Are you on thyroid medication for an under active thyroid?

Thyroid Dysfunction – An Often Neglected Condition By Physicians

Anti-aging physicians have established that many middle-aged individuals, especially women, experience symptoms of an under active thyroid even though their thyroid blood tests are within the accepted normal range. These cases of thyroid dysfunction often involve any combination of the following symptoms: Fatigue, Easy weight gain and difficulty losing weight, Cold hands and/or feet, Low body temperature, Dry skin, Lowered resistance to infections.

Anti-aging physicians indicate that a TSH (Thyroid Stimulating Hormone) blood test above 2micromoles/L indicates thyroid dysfunction, whereas a TSH blood test above 4 micromoles/L indicates an under active thyroid that requires treatment with thyroid hormone replacement. As such, individuals with early stage under active thyroid (thyroid dysfunction) with a TSH between 2-4 micromoles/L are often not treated by their physician because their TSH level is not yet above 4micromoles/L. Yet, many individuals in this range (2-4 micromoles/L) have symptoms of an under active thyroid that significantly interferes with their quality of life. This is where Adëeva Thyro Support can be very beneficial, as it contains ingredients to help boost thyroid gland function.

Whereas severe hypothyroidism (diagnosed under-active thyroid confirmed by TSH blood test over 4micromoles/L) requires a prescription for thyroid hormone from a physician, cases of thyroid dysfunction are often improved by supplementation with targeted nutrients that support the thyroid gland.

Thyro Support Formula:

Adëeva Thyro Support Formula contains essential nutrients to support thyroid function. This product can help you overcome symptoms of fatigue, difficulty with losing weight, easy weight gain, cold hands and feet, skin texture changes, and lowered resistance to infection, which are commonly caused by sub-optimal thyroid function. Many anti-aging experts suggest, while thyroid disease is rare, thyroid dysfunction is very common as we age, beginning as early as age 35.

The American Association of Clinical Endocrinologists estimates that 1 in 5 women and 1 in 10 men over the age of 60 suffer from an under-active thyroid gland. Anti-aging experts suggest that the number of people with sub-optimal thyroid function is much higher than this, with symptoms of slower metabolism often beginning between 33-40 years of age.

Although symptoms of an under-active thyroid require medical assessment, Adëeva Thyro-Support Formula is a helpful adjunct to thyroid hormone replacement therapy. This product should be used to boost thyroid function especially in cases of slow metabolism where the results of thyroid testing do not meet the medical criteria for hormone replacement therapy.

Adëeva Thyro-Support Formula contains three essential nutrients that work synergistically to support thyroid function:

- Coleus Forskolin – an herb shown to increase the release of thyroid hormone from the thyroid gland
- Iodine – the essential mineral that is a critical component of thyroid hormone synthesis
- Tyrosine – the amino acid that is the essential building block from which thyroid hormone is made in the thyroid gland.
- Gum Guggul – an herb shown to increase conversion of T4 to T3, the most active form of thyroid hormone

Who Should Supplement With Thyro Support Formula?

1. Individuals with symptoms of low thyroid function, whose thyroid blood tests are still normal (between 2-4 micromoles/L) often benefit from taking Thyro Support Formula. This nutrient combination can help the thyroid produce more optimal amounts of the most active form of thyroid hormone, boosting metabolism and helping to over come other signs and symptoms of thyroid dysfunction.

2. Thyro Support Formula can also improve the effects of thyroid medication for individuals already taking a prescription thyroid medication for an under active thyroid. However, support Thyro Support Formula cannot substitute for thyroid replacement therapy in these cases.

If either of these circumstances applies to you, ask your health practitioner if Adëeva Thyro-Support Formula may be helpful in your case.

For more information about Adëeva Thyro-Support Formula visit www.adeevainfo.com

Clinical Applications:

To support thyroid function in cases where symptoms of under-active thyroid are present in the absence of abnormal thyroid blood tests (fatigue, skin and hair changes, slow metabolism, easy weight gain etc.)
.....
Adjunctive nutritional management given concurrently with thyroid medication in cases of established hypothyroidism

Active Ingredients

Coleus Forskolin (10% extract)	200 mg
Iodine (from kelp powder)	300 mcg
L-Tyrosine	500 mg
Gum Guggul (2.5% Guggulsterone)	300 mg

Amounts for 2 vegetable capsules, 60 per bottle

Contraindications & Considerations

Conditions:

- Pregnancy
- Breast Feeding or Lactation
- Kidney Failure (Renal Failure)¹
- Received a transplant of any kind¹
- If kidney has been removed¹
- Kidney clearance problem (e.g., a dialysis patient)¹
- Hyperthyroidism

¹ Requires approval from specialist physician
