

Adëeva™ Products

All-In-One Multi-Vitamin & Mineral

High Potency - B-50 complex, antioxidant enriched & 500 mg calcium

Nature's Essential Oils

Optimal blend of Omega essential fatty acids

Glucosamine Joint Formula

Fast-acting formula for Osteoarthritis and joint cartilage damage

Nature's Relief

Natural anti-inflammatory for joints, muscles and bursitis

Women's Hormonal Balance

Relief of Menopause symptoms, PMS, fibrocystic breast disease

Bone Support Formula

Prevention and Management of Osteoporosis

Prostate 40 Plus

Prevents/Reverses Prostate enlargement and supports prostate health

Body Burn

Fat Metabolizer for weight loss, athletic performance and blood sugar control

Immuno-Detox Prime

Strengthens the immune and detox systems

Flora-Essentials

Improves digestion and immune function

Cardio Essentials

CoQ10 and Hawthorn for heart health and blood pressure regulation

Thyro-Support Formula

Supports thyroid function and thyroid hormone therapy

Memory Support Complex

Supports memory and helps prevent age-related memory loss

SensaGen

Sexual enhancement for men and women

CholesterEx

Lowers cholesterol and triglycerides

UT-Clear

Prevents recurrence of urinary tract infections

Sleep-E Naturals

Natural sleep agent with brain protective nutrients

Ultimate Glutathione

Increase levels of glutathione for liver, kidney and immune support

MigranEx

Helps to reduce migraine attacks

Adrenal Support Formula

Anti-stress formula and adrenal support

Nature's Iron

High potency and bioavailable iron (45 mg) - non constipating

Orega Sept

Nature's antibiotic to help fight infections, acne and rosacea

Lean Mass Plus

High quality whey protein and fibre shake

Clinical Weight Loss Kit

Dr. Meschino's complete weight loss coaching system

Essential H.A.

Topical formula to reverse wrinkles, crows feet and fine lines

Stone Factors

For treatment and prevention of kidney and gallbladder stones

Creatine Plus

Powder-stir into juice for increased energy, strength, power

Ultimate Glutathione

Essential Protection From Our Toxic Environment and Support For Common Health Challenges

Glutathione is small protein made by the body that is a powerful antioxidant and is also required for detoxification of many dangerous environmental chemicals and drugs.

Adëeva Ultimate Glutathione contains natural agents shown to boost liver and cellular levels of the antioxidant glutathione. Glutathione is not only a premiere cellular antioxidant, but is also required for detoxification of many dangerous environmental chemicals. In many chronic liver conditions and immune-compromised states, glutathione levels are reduced or depleted. Supplementation with factors known to boost glutathione levels has been shown to be an important part of the management of these conditions and often facilitates better overall outcomes with improved liver, kidney and immune function.

Everyone Benefits From A Glutathione Boost

In the today's toxic world our liver, detoxification and immune systems require additional glutathione support. A quick overview highlights the fact that since the Second World War an estimated 85,000 synthetic chemicals have been registered in the US alone. Today's environment now exposes us to various pesticides, herbicides, plastics (e.g. PVC), xenoestrogens (e.g. bisphenol A, parabens) and pollutants in our food, water and air. The human body has had very little time to adapt to these new challenges, many of which over-tax our detoxification systems and suppress immune function by rapidly using up glutathione stores.

Studies suggest that the new chemical environment in which we live is a major contributing factor to the high incidence of many degenerative diseases. As such, our bodies now require a daily glutathione boost to help protect us against environmental toxins and to keep our immune system, liver and kidneys working properly.

How To Boost Your Glutathione Levels

Unfortunately, taking glutathione itself is not an efficient way to raise glutathione levels, as it is poorly absorbed from the gut and fails to raise blood and cell levels of glutathione. Studies prove that glutathione levels are best optimized via supplementation with meaningful doses of N-acetylcysteine, Alpha-lipoic acid, Silymarin (from milk thistle) and L-Glutamine, all of which are contained in Adëeva Ultimate Glutathione. These ingredients have also been shown to:

- Improve blood sugar regulation
- Protect and support nerve cells
- Help reverse nerve damage caused by chemotherapy drugs, other drugs and diabetic states
- Regenerate damaged liver cells
- Minimize and/or reverse heavy metal damage (especially mercury)

The Game Plan To Protect Your Health

To protect yourself against environmental toxins and the cumulative damage from drugs, alcohol, caffeine etc, adults should take:

1. One capsule of Ultimate Glutathione (Adëeva) each day for general health support, along with the Adëeva All-In-One Multiple Vitamin and Mineral Supplement, which contains optimal levels of antioxidants vitamin C, beta-carotene, selenium, vitamin E, which also help support glutathione levels.

2. By age 50, individuals should also take 1-2 capsules per day of Adëeva Immuno-Detox Prime, due to the age-related decline in immune and detoxification function that occurs at this stage in life.

3. If you suffer from a chronic liver or kidney ailment, compromised immune function, or feel that your work or home environment (or the food/air/water you consume) contain excess levels of toxins or pollutants, then your health practitioner may recommend taking higher doses of these supplements (e.g. 3-4 capsules per day each of Ultimate Glutathione and Immuno-Detox Prime).

Ask your health practitioner if Adëeva Ultimate Glutathione should be part of your overall wellness and supplement regimen.
