

Orega-Sept

Capsules, Cream & Ointment

Nature's proven antibiotic, anti-fungal and anti-viral agent to help fight a multitude of infectious conditions.

Orega-Sept contains the research tested P73 wild oregano blend that represents the first oregano-based product to be tested for its ability to kill a variety of common microorganisms associated with infectious conditions in humans. e.g., Colds, flu; Chronic bronchitis, sinusitis, asthma, mono; candida, yeast infections; duodenal and gastric ulcers; acne, rosacea.

The volatile oils in the P73 wild oregano blend have been shown to exhibit direct killing effects against a host of viruses, bacteria, and fungi (including candida albicans). Practitioners who use this product, refer to it as nature's antibiotic, but unlike synthetic antibiotics it does not produce antibiotic resistance or other associated side effects.
