

Digestive Enzymes & Prebiotics

How They Benefit YOU

from the Inside - OUT!

Experiencing digestive issues as we age is not uncommon, but antacids only mask the problem by reducing stomach acid, temporarily alleviating symptoms, BUT making the condition worse in the long run.

Broad spectrum digestive enzymes aid the digestive process by providing the necessary ingredients to properly digest fats, carbohydrates and proteins.

Bloating, Gassiness, Skin Problems, such as acne, and even some ***Food Sensitivities*** can be ***REDUCED*** or ***ELIMINATED***.

Adëeva's Flora Essentials contains highly-targeted enzymes PLUS prebiotics - "food for your good gut bacteria" - to ensure they colonizes and thrives in your digestive tract!
