

# *What your blood tests may NOT be telling you about your THYROID...*

- . Fatigue?*
- . Gaining weight easily and difficulty losing it?*
- . Skin texture changes?*
- . Hair loss?*
- . Cold hands and/or feet?*

*Any of these symptoms may be signs of a borderline **low thyroid**. The ingredients in*

***Adeeva's Thyro-Support Formula** assist thyroid function by providing the "raw materials" for the body to make thyroid hormone, allowing the thyroid to release this hormone more readily, and promoting the conversion of thyroid hormone T4 to the more active form, T3. It is also a helpful adjunct to regular hormone replacement therapy for low thyroid conditions!*
