

# Adëeva™ Products

## All-In-One Multi-Vitamin & Mineral

High Potency - B-50 complex, antioxidant enriched & 500 mg calcium

## Nature's Essential Oils

Optimal blend of Omega essential fatty acids

## Glucosamine Joint Formula

Fast-acting formula for Osteoarthritis and joint cartilage damage

## Nature's Relief

Natural anti-inflammatory for joints, muscles and bursitis

## Women's Hormonal Balance

Relief of Menopause symptoms, PMS, fibrocystic breast disease

## Bone Support Formula

Prevention and Management of Osteoporosis

## Prostate 40 Plus

Prevents/Reverses Prostate enlargement and supports prostate health

## Body Burn

Fat Metabolizer for weight loss, athletic performance and blood sugar control

## Immuno-Detox Prime

Strengthens the immune and detox systems

## Flora-Essentials

Improves digestion and immune function

## Cardio Essentials

CoQ10 and Hawthorn for heart health and blood pressure regulation

## Thyro-Support Formula

Supports thyroid function and thyroid hormone therapy

## Memory Support Complex

Supports memory and helps prevent age-related memory loss

## SensaGen

Sexual enhancement for men and women

## CholesterEx

Lowers cholesterol and triglycerides

## UT-Clear

Prevents recurrence of urinary tract infections

## Sleep-E Naturals

Natural sleep agent with brain protective nutrients

## Ultimate Glutathione

Increase levels of glutathione for liver, kidney and immune support

## MigranEx

Helps to reduce migraine attacks

## Adrenal Support Formula

Anti-stress formula and adrenal support

## Nature's Iron

High potency and bioavailable iron (45 mg) - non constipating

## Orega Sept

Nature's antibiotic to help fight infections, acne and rosacea

## Lean Mass Plus

High quality whey protein and fibre shake

## Clinical Weight Loss Kit

Dr. Meschino's complete weight loss coaching system

## Essential H.A.

Topical formula to reverse wrinkles, crows feet and fine lines

## Stone Factors

For treatment and prevention of kidney and gallbladder stones

## Creatine Plus

Powder-stir into juice for increased energy, strength, power

## Glucosamine Joint Formula

The Natural Choice of  
Healthcare Professionals since 1996

# Glucosamine Joint Formula

With natural anti-inflammatory agents for fast-acting relief from Osteoarthritis and joint cartilage injuries.

Most people have heard of Glucosamine, but often don't realize that our bodies already produce Glucosamine sulfate naturally, as it is required for the body to make essential components for the joint cartilage. Joint cartilage acts as shock absorbing pads at the ends of our bones. Loss of joint cartilage is the primary event in developing arthritic joint.

Unfortunately, as we age our body slows down its production of Glucosamine Sulfate, which results in erosion of joint cartilage, setting the stage for osteoarthritis or degenerative joint disease. In most cases this eventually leads to some level of chronic pain, stiffness and inflammation that can escalate into clinical state that significantly compromise an individual's quality of life.

The good news is that studies conducted over the past 20 years have shown that supplementation with a pharmaceutical and pure grade of Glucosamine Sulfate can help the body rebuild and repair joint cartilage damage. Research also suggests that it may help prevent the development of joint degeneration, if taken before the cartilage erosion occurs. This is why many experts now suggest that everyone over 40 years of age take at least a low dose of Glucosamine Sulfate daily (500-1000 mg) for prevention of osteoarthritis.

To enhance the effectiveness of Glucosamine it is best to take in conjunction with natural anti-inflammatory agents such as MSM, Quercetin (a bioflavonoid) and Bromelain Enzymes, which help to control the inflammatory response that also accompanies the aging process, and the development of osteoarthritis. MSM, Quercetin and Bromelain help to suppress the inflammatory aspects of joint arthritic problems, which give rise to pain and stiffness, and also suppress the age-related propensity for white blood cells in our joints to secrete inflammatory chemicals.

## Glucosamine Joint Formula: An Essential Supplement For Everyone Over 40 To Protect Your Joints From Age-related Arthritic Changes: Don't wait till it's too late

Glucosamine Joint Formula contains a purified and stable grade of glucosamine sulfate, in combination with three natural the anti-inflammatory herbs MSM, Quercetin and Bromelain Enzymes. This faster-acting formula enables individuals to experience relief of arthritic symptoms sooner than if they took Glucosamine alone (which often takes up to 12 weeks or more) by inhibiting the synthesis of pro-inflammatory prostaglandin hormones, reducing pain, swelling and stiffness.

This product may also help prevent the development of osteoarthritis by providing the raw materials necessary to prevent the age-related decline in cartilage production and the propensity to secrete inflammatory chemicals within our aging joints. As such, individuals over 40 years of age should take at least one capsule per day for prevention.

This product is most suitable for individuals with osteoarthritis, rheumatoid arthritis, post-traumatic arthritis and joint cartilage injuries (including young athletes). Note that large-scale clinical trials have proven the effectiveness of glucosamine sulfate. Do not be fooled by products containing other forms of glucosamine that do not have the same depth or research support. Also note that Chondroitin Sulfate is too large a molecule to be absorbed from the intestinal tract to the bloodstream, showing only 0-13% bioavailability. Do not waste your money on products containing chondroitin, which lacks sound scientific and clinical support.

If you are over age 40 and/or have arthritis or joint cartilage problems, ask your health practitioner if Adëeva Glucosamine Joint Formula may be helpful in your case.

For more information about Adëeva Glucosamine Joint Formula visit [www.adeevainfo.com](http://www.adeevainfo.com)

## Clinical Applications:

- Osteoarthritis
- Joint Cartilage Damage
- Prevention of degenerative arthritis in patients over age 40

## Active Ingredients

Glucosamine Sulfate	1,500 mg
MSM (Methyl Sulfonyl Methane)	400 mg
Quercetin	300 mg
Bromelain Enzymes (2,400 GDU)	300 mg

*Amounts for 3 capsules, 90 per bottle*

## Contraindications & Considerations

### Conditions:

- Pregnancy
- Breast Feeding or Lactation
- Kidney Failure (Renal Failure)<sup>1</sup>
- Received a transplant of any kind<sup>1</sup>
- If kidney has been removed<sup>1</sup>
- Kidney clearance problem (e.g., a dialysis patient)<sup>1</sup>
- Seafood or shellfish allergy<sup>2</sup>

### Medication/Apparatus:

Requires approval from specialist/physician  
This applies to Glucosamine Joint Formula: Glucosamine is derived from the shells of shellfish, but is shown to be devoid of shellfish-derived protein. As such, many individuals with shellfish allergies have taken this product without incident.
