

Adëeva™ Products

All-In-One Multi-Vitamin & Mineral

High Potency - B-50 complex, antioxidant enriched & 500 mg calcium

Nature's Essential Oils

Optimal blend of Omega essential fatty acids

Glucosamine Joint Formula

Fast-acting formula for Osteoarthritis and joint cartilage damage

Nature's Relief

Natural anti-inflammatory for joints, muscles and bursitis

Women's Hormonal Balance

Relief of Menopause symptoms, PMS, fibrocystic breast disease

Bone Support Formula

Prevention and Management of Osteoporosis

Prostate 40 Plus

Prevents/Reverses Prostate enlargement and supports prostate health

Body Burn

Fat Metabolizer for weight loss, athletic performance and blood sugar control

Immuno-Detox Prime

Strengthens the immune and detox systems

Flora-Essentials

Improves digestion and immune function

Cardio Essentials

CoQ10 and Hawthorn for heart health and blood pressure regulation

Thyro-Support Formula

Supports thyroid function and thyroid hormone therapy

Memory Support Complex

Supports memory and helps prevent age-related memory loss

SensaGen

Sexual enhancement for men and women

CholesterEx

Lowers cholesterol and triglycerides

UT-Clear

Prevents recurrence of urinary tract infections

Sleep-E Naturals

Natural sleep agent with brain protective nutrients

Ultimate Glutathione

Increase levels of glutathione for liver, kidney and immune support

MigranEx

Helps to reduce migraine attacks

Adrenal Support Formula

Anti-stress formula and adrenal support

Nature's Iron

High potency and bioavailable iron (45 mg) - non constipating

Orega Sept

Nature's antibiotic to help fight infections, acne and rosacea

Lean Mass Plus

High quality whey protein and fibre shake

Clinical Weight Loss Kit

Dr. Meschino's complete weight loss coaching system

Essential H.A.

Topical formula to reverse wrinkles, crows feet and fine lines

Stone Factors

For treatment and prevention of kidney and gallbladder stones

Creatine Plus

Powder-stir into juice for increased energy, strength, power

Nature's Essential Oils

*The Natural Choice of
Healthcare Professionals since 1996*

Nature's Essential Oils

Optimal blend of EPA, DHA, ALA, GLA for disease prevention, suppression of inflammation, healthy skin and anti-aging.

Mainly due to the modern day farming methods, livestock feeding and food processing practices most of us have either an imbalance or deficiency in essential fatty acids. This imbalance/deficiency has been shown to be a factor in a host of common health conditions

Health Impact Of Essential Fatty Acids

Essential fatty acids, or EFA's for short, that we get from food and supplements, are a vital part of the structure of all body cells. Within our cells, essential fatty acids are involved in many health-promoting functions and play an extremely important role in brain development, brain function and vision. EFAs are also required for the body to form specialized hormones (PG-1 and PG-3), which reduce risk of heart disease by improving circulation, reduce risk of cancer by slowing down the rate of cell division and enhance the smoothness and softness of your skin. Essential fatty acids are also used therapeutically to combat diabetic nerve damage, various inflammatory conditions, as well as eczema and other skin conditions. Essential fatty acid deficiency or imbalance has also been shown to contribute to Alzheimer's disease risk and learning disabilities, as they have a profound impact on brain structure and function.

Based on the available evidence, many experts suggest reducing intake of high fat animal products (with the exception of fish), and taking a nutritional supplement each day containing a combination of borage seed oil, flaxseed oil and fish oil.

Adëeva Nature's Essential Oils – the perfect combination to meet your EFA needs

Each caplet of Adëeva Nature's Essential Oils contains essential fatty acids derived from equal concentrations of: GMO-free flaxseed oil, borage oil (22% GLA), and high-yield fish oil (30% EPA / 20% DHA). GMO free flax seed oil is a rich source of omega 3 fatty acids known as ALA. In the body ALA can be converted to EPA, and also acts to block the build-up of the undesirable fat known as AA (arachidonic acid). Fish oil is a rich source of the omega-3 fatty acids EPA and DHA. Both EPA and DHA are required for brain development, vision, immune function and for synthesis of the myelin sheath, which insulates many nerves throughout the body. Recent studies indicate that higher brain levels of omega-3 fats reduce future risk of dementia as one ages and that most people do not achieve optimal levels from their daily diet. Higher circulating levels of these essential fats found in our tissue is also associated with lower risk of certain cancers.

This formula contains one of the highest amounts of EPA, DHA (50% yield of pure EPA and DHA) available on the market. Borage oil is a rich source of GLA, and the active ingredient for prostaglandin series-1 hormones. Diabetics and individuals who suffer from eczema, PMS and immune dysfunction have been shown to produce insufficient amounts of GLA. The production of GLA in the body also declines as we age and is an important aspect in nerve repair and skin anti-aging, and has important anti-inflammatory and possibly anti-cancer properties.

Due to the change in EFA content of our foods Nature's Essential Oils is an important foundation supplement for virtually all adults, and is designed to be taken in conjunction with the All-in-One Multi-Vitamin & Mineral, as a daily life-long foundation program.

Ask your healthcare practitioner if Adëeva Nature's Essential Oils should be part of your foundation supplement regimen.
