## Nature's Relief

The Natural Choice of  
Healthcare Professionals since 1996

# Nature's Relief

Natural Anti-inflammatory Herbs that reduce pain and inflammation in tendonitis, myofascitis, bursitis, neuritis, and various arthritic conditions

Nature's Relief contains a powerful and potent blend of 4 natural anti-inflammatory agents proven to reduce swelling, pain and stiffness in many chronic rheumatoid, arthritic and autoimmune conditions, as well as tendonitis, bursitis and the inflammation associated with facet irritation and disc herniation.

This product can be taken with aspirin and other NSAIDs as well as prednisone, but more importantly, it can help reduce or eliminate the requirement for these harsh medications, which are known to damage the intestinal tract, liver and kidneys. In general, Nature's Relief contains the four most powerful natural ingredients that nature has to offer in regards to blocking the formation of pro-inflammatory cytokines, prostaglandins and leukotrienes, which are the chemicals that produce joint and tissue inflammation and pain.

## Easier On Your Body

The other good news is that the use of these natural agents is not associated with stomach irritation, intestinal bleeding and the other side effects produced by aspirin and other non steroidal anti-inflammatory drugs. As such, a combination of these effective, natural anti-inflammatory agents can often substitute for, or reduce dependency on, harsher over-the-counter or prescription anti-inflammatory medications.

## Proven Results in Human Studies

The natural anti inflammatory agents found In Nature's Relief have been shown to be effective in a variety of human studies, when tested against anti-inflammatory drugs (e.g. Ibuprofen, Voltaren). For example, Curcumin (derived from the spice turmeric) has been shown to be effective in clinical trials involving patients with rheumatoid arthritis. Boswellia has been used successfully in studies with osteoarthritis and rheumatoid arthritis patients. White Willow Bark Extract has been shown to be effective in the management of various forms of arthritis, back pain and other joint inflammatory conditions. The active ingredients in Ginger have been shown to be helpful in various arthritic conditions and muscle inflammatory states.

When combined together these natural, herbal agents often produce marked improvements toward reducing pain and inflammation associated with various conditions affecting the muscles and joints of the body.

If you suffer from any joint, muscle or arthritic pain, ask your health practitioner if Adēeva Nature's Relief may be helpful in your case.
